Your PC's version of FamWorks by SDL is v1.8.56 which is compatible with the version of software about to be installed on your Workabout Pro stock recorder.

<u>Q</u>uit

This installation process will overwrite existing data on the WorkaboutPro Stock Recorder. If necessary, import any new data on the WorkaboutPro Stock Recorder into FamWorks before proceeding or that data will be lost. Before continuing please ensure that your WorkaboutPro stock recorder is in its cradle, turned on and connected to your PC and does NOT have FamWorks running on it.

### Installation

a. Look for the big green tick that shows your stock recorder is connected.

#### **IMPORTANT!**

You cannot use your stock recorder until you have sent your farm details from FarmWorks. Read the stock recorder Quick Start guide or refer to page 10 of this manual to learn how to do a data transfer.

#### Trouble-shooting

If you can't find the Windows Mobile Device Center -

- » It might be called "Sync Center" instead.
- » Use Windows Explorer to search click on the Start button, type in Windows Mobile

If the stock recorder won't connect -

» Pop the stock recorder out of the cradle. Check the copper connector plates on the bottom are clean, then push the stock recorder firmly back into the cradle.

- » Are the cords attached correctly? The cradle must be connected to the computer with the USB cord.
- » Is the stock recorder turned on? It must be 'awake' and in the cradle.

» Is there a message window hiding on the screen that's waiting for a response? Look around on the desktop or down on the bottom taskbar; close the message box and the stock recorder will connect.
