

Looking Up Animal Records

The left-hand button on the stock recorder opens the **Animal Record** screen, which has a number of different screens available for viewing an animal's details and history. Most of the screens are only for viewing, not for adding information.

Animal Details shows the date of birth, sex, breed, sire, dam, location and other details. This screen is for viewing only - you can not add any data.

Add Comment or **Add Cull Comment** allow you to type in a comment about this animal that becomes part of its permanent record once the stock recorder is downloaded into the computer. You can create FarmWorks reports based on the comments you record.

Looking Up Animal Records

The **Comment History** is for viewing all comments recorded against an animal.
